

We intend to follow the course of action that our professional associations have drawn up together with the RIVM and VWS.

This will include the following:

- What is the problem?
- Do you have one or more of the following (also mild!) symptoms: colds or coughing or tightness in the chest, or a fever (over 38°C)?
- Have you had any complaints (COVID-19 symptoms) in the past 24 hours?
- Do you have housemates/family members with a fever and/or shortness of breath?
- Have you or a housemate/family member been diagnosed with COVID-19 during the last 14 days?
